Born 11 January 1999

SUMMARY

Cross platform developer and Technical Lead with 5+ years of software development experience, building cross-platform apps in Flutter and maintaining native Android and iOS codebases. Currently developing, planning and maintaining highly secure, heavily encrypted military communication applications and systems. Comfortable working below the Flutter layer with platform channels.

WORK EXPERIENCE

March 2025 – Present

Bangladesh Army

Technical Lead – IT Directorate

Project names withheld under military NDA

- Lead Engineer, owning project planning & management and resource management across 20 developers for Frontend codebases and Backend logic.
- Developed highly secure communication systems with feature parity to mainstream messengers, including meetings, one-to-one and group chat, voice and video calls, and media sharing, with additional encryption layers on top of standard end-to-end encryption.
- Developed real-time tracking app for monitoring military personnel, vehicles, and drones.
- Developed healthcare management system for military personnel and civilians in all militarized zones across Bangladesh.
- Maintain and extend legacy native Android and iOS applications.

August 2024 – March 2025

mPower Social Enterprises Ltd.

Senior Software Engineer – Project Development

- Mobile Applications Lead, planning and managing projects alongside handling a team of 14 mobile developers.
- **Khamar Bondhu** (Flutter): farm management app for Android and iOS that lets farmers manage their farms and consult registered professionals. Built with Riverpod; integrated SSLCommerz payments, Agora video calls, and AdMob. Available on Google Play.
- **E-Learning Module**: reusable livestock-knowledge library with quizzes and score tracking, integrated into four apps: Shurokkha, Shudokkho, Khamar Bondhu, and Motsho Bondhu.
- **BAHIS** (Bangladesh Animal Health Intelligence System): survey and data-collection app for animal health, with dynamic ODK xForm rendering and runtime UI generation.
- **Shudokkho** (Native Android): telemedicine app connecting rural communities with registered vets. Built with MVVM and Dagger-Hilt; integrated Agora video calls, SSLCommerz payments, and custom in-app advertising. Available on Google Play.

October 2021 – August 2024

BJIT Limited

Software Engineer – Innovation Services Engineering Division

- **Pocketalk Translation App** (Native Android): developed features, fixed bugs, and delivered client change requests. Available on Google Play and the App Store.
- **Pocketalk Devices**: developed, documented, and supported software across six translation device models (PTW, PTM, PTS, PTS2, PTS+, PTS2+).
- **AOSP**: built system applications and customised Android system settings at the OS level.
- **Ventana**: built a control-hub app that shares data and commands with connected applications via Content Providers.

SKILLS

Flutter

Core: Dart, Flutter, Platform Channels
State Management: Provider, Riverpod
Architecture: MVVM, MVC, Clean Architecture
Networking: Dio, HTTP
Async: Futures, Streams, Isolates, Compute
Integrations: Firebase, Agora, Zoom SDK, WebRTC, SSLCommerz, bKash, Stripe, AdMob

Native Mobile

Android: Kotlin, Java, Coroutines, RxJava, WorkManager, Dagger, Hilt, Retrofit, OkHttp, Ktor, Room, SQLite, Navigation Component, Glide, Coil, AOSP
iOS: Objective-C, Swift

Additional Skillset

Languages: JavaScript, Python, HTML, CSS, C/C++, SQL

Tools

Version & Task Tracking: Git, Jira, Redmine
AI: Claude Code, Antigravity
Testing: Postman, JMeter
Design: Figma, Draw.io, Photoshop

EDUCATION

2017 – 2021

Bachelor's Degree in Computer Science and Engineering

School of Data and Sciences
BRAC University

- Thesis in Machine Learning.
- CGPA 3.62 out of 4.00

TRAINING

2021

BJIT Academy

Software Development and Soft-skills Training

- Android Development
- Project Management
- Japanese Business Culture
- Business Finance and Communication
- Workplace Etiquette

AWARDS

2023 – 2024

Best Performer of the Year

Recognised as the top-performing engineer deployed on a client-billed project during my time at BJIT Limited - credential
